Activity: Remedial Investigation/Feasibility Study

1. Progress this Period - August 1984:

Progress on this project has been on hold since submission of the second draft Work Plan on June 19, 1984, pending resolution of responsible party performance of the Remedial Investigation/Feasibility Study (RI/FS). This was confirmed in a telephone conversation with the Regional Site Project Officer (RSPO), Mr. Robert McKnight, on August 7, 1984.

2. Problems Resolved: None

3. Anticipated Problem Areas and Recommended Solutions:

Since it now appears that the RI/FS will be performed by responsible parties, and that negotiations with the EPA may not achieve a final resolution in the near future, the project should be placed on formal "hold" for the interim to avoid unnecessary administrative expenses.

4. Deliverables Submitted: None

5. Upcoming Events: None

6. Activities Planned: None

7. Key Personnel Changes: None

8. Subcontracting: None

9. Travel this Period: None

10. Contract Laboratory Program: No Involvement

11. Schedule Changes:

The schedule is entirely dependent upon resolution of responsible party action.
